

Integrated Management System

Policy

Here at Taylor Waste Solutions, we are passionate about disposing of waste in an ethical and sustainable manner, through our reuse, reduce, and recycle methods. As a waste management company, we are continually seeking out innovative approaches to tackle waste management - working against the environmental damage our planet is experiencing. We aim to stay at the forefront of technology and industry advancements, constantly exploring new ways to enhance recycling processes, to improve sustainability and work towards our aim of a greener planet. We feel incredibly fortunate to work with companies that share this mission statement. We are committed to the continuous improvement of our products, our people, and our processes.

Taylor Waste Solutions Ltd will take all reasonably practicable measures to ensure continued improvement in our business standards by setting appropriate objectives and targets that will be annually reviewed.

The following **core SHEQ principles** shall form part of an integrated framework towards a responsible approach for doing business:

Health and Safety

The safety of all Taylor Waste Solutions employees, clients and contractors is of prime importance. Our overall goal is for no major accidents or significant harm to people, and we are committed to achieving this goal. We aim to achieve this by eliminate the hazards to as low as is reasonably practicable. Taylor Waste Solutions promotes and maintains the physical, mental, and social wellbeing of our employees and others affected by our operations.

People

Employees shall be treated in a manner that respects them as individuals, develops their potential in the context of the business and encourages them to be part in our development.

Environment

We shall identify our key impacts and monitor the appropriate control measures to ensure all practical measures are taken to prevent pollution, reduce waste and mitigate the impact of our operations. We shall manage our investment and operations in a way that considers climate change impact.

Quality

We are committed to providing a quality service that meets and exceeds all expectations in a safe and profitable manner. Through the setting of objectives and targets, we monitor, maintain, and continually look to improve our service delivery, whilst maintaining ISO 9001, ISO 14001, and ISO 45001. We will ensure our staff and client's information is securely managed.

We will ensure that we:

- Consult, engage, listen, and respond openly to our employees, customers, and legitimate public interest groups.
- Maintain compliance with legislation and compliance with any other applicable standards and codes that may be applicable to our operations.
- Openly report our progress.
- Communicate our Policy to all employees and others who may require it internally and externally.

This Integrated Management Policy is continually being monitored and developed and will be formally reviewed annually, though on exception amendments may be implemented at other times as required by legislative changes or working practices.
